

Do you need YOUR first big break in TV?

Whizz Kid Entertainment is a progressive multi-media production company specialising in entertainment, music and event programming across all platforms from traditional terrestrial to digital and mobile.

You needn't necessarily be a media graduate, you might be someone working in another creative arena but have a burning desire to work in TV or perhaps you have a head full of ideas and a love of writing and need somewhere to channel those energies. Whatever your background and whichever road you have taken to where you are, we don't mind – we just want the right people, with the passion, ideas and drive!

Our recent commissions include **Let's Dance for Comic/Sport Relief** (BBC1), **U2 on YouTube** (YouTube), **Elton's New Year's Eve Party – Live From the O2 Arena** (ITV1 & ITV3), **Countdown To Midnight: Take That & Guests Live At The O2** (ITV1 & ITV2), **Happy Birthday Elton!** (ITV1), **The Orange British Academy Film Awards** (BBC1), **The BAFTA Television Awards** (BBC1), **George Michael: The Road To Wembley** (Channel 4), **The Nokia Green Room** (Channel 4) plus a major on-line production – **The Moonlight Signing of Harry Potter and the Deathly Hallows** for Bloomsbury Publishing.

We are looking to recruit a **Development Intern** to join our team and work alongside our established creative team.

Our internship scheme provides an opportunity to work alongside industry professionals, providing a genuine, paid learning experience at an established production company.

The role involves developing ideas, writing treatments, attending and contributing fully to creative brainstorming sessions and participating in the creative processes of programme development.

We are looking for people with:

- Creativity and brilliant ideas
- a passion for television and all things digital!
- a genuine hunger to work within the industry
- the ability to work well with others in a creative environment
- confidence and initiative
- excellent writing skills
- a knowledge of current trends in television
